SIM SCHEDULING

IMSH 2026

SCHEDULE

Real-time conflict prevention across rooms, manikins, equipment, SP's, and faculty.

Multi-view options (daily, weekly, monthly, list view) for fast scenario planning

faculty request → vetting → approval pipeline.

INVENTORY

Centralized tracking for manikins, task trainers, supplies, and consumables

Real-time availability tied directly to scheduled sessions

Expiration and low-stock alerts to support readiness and compliance

Founding Beta Partner

Limited slots
Early access
Reduced cost

MANAGEMENT

Automatically send calendar invites for scheduled simulation days to all participants.

Receive automatic updates when schedules or resources change

ANALYTICS

Utilization analytics for rooms, manikins, equipment, and personnel

Cost-center and usage reporting for leadership and accreditation

Operational metrics that help justify staffing, spaces, and resource growth

Enterprise License

Full rollout
long term support
Case study available
